SECURING THE GLOBAL SUPPLY CHAIN

Incorporated in 1998, the Mega Fortris Group of Companies is a leading manufacturer and specialised designer of security seals, tamper-evident products and complete solutions for the securing of goods-in-transit.

As one of the largest security seals manufacturers in the world, our Malaysian-based headquarters houses a purpose-built manufacturing plant that is certified with ISO 9001 and 14001 Quality Management Systems.

Mega Fortris provides high quality security seals to industry leaders in transport sectors on land, sea rail and air. Our products and services have enabled us to secure customers from all over the globe in various industries such as chemicals, oil and gas, food and beverages, pharmaceuticals, ICT, hospitality, casinos, security companies, banks and manufacturing.

At Mega Fortris, we believe in securing the global supply chain — all the way.

Our focus on integrity, innovation and commitment to the development of our designs and products to meet the most discerning of customer requirements has led to Mega Fortris's continuous and exponential growth.

We have set up a network of production facilities and offices around the world in 23 countries to provide local services with a global reach within a moment's notice.

Mega Fortris offers a full range of quality security products at very competitive prices, a winning combination that has led us to become the preferred supplier for many leading companies around the world.

SECURITY BOXES, LABELS, POUCHES, BAGS

Tamper-Evident Labels

These high-quality adhesive labels are suitable for either indoor or outdoor use. Heat and freeze-resistant, they are also resistant to freon gas. When peeled a hidden message is revealed to indicate tampering/removal.

Typical applications include securing:

- Sensitive documents
- Security envelopes
- Evidence bags
- Utility meters and timers
- Cash boxes and ATMs
- Ballot boxes
- Canisters and drums
- Food and beverage containers

Tamper-Evident Bags

Our TE bags are made of co-ex film, which is resistant to oil, water and rough handling and is 100% recyclable. TE pouches and envelopes are tough enough to withstand regular handling while also being delicate enough to trigger tell-tale signs of tampering. Applications include the securing of:

- Cash deposits / cash-in-transit
- Confidential documents
- Police/forensic evidence
- Duty-free shopping bags

Reusable Security Bags

All bags can be customized and manufactured with various sizes, shapes, colors, windows, handles (with constructive requirements subject to review). Our reusable bags can be made from a selection of fabric materials such as PVC, polyester, nylon and canvas.

The unique feature of this bag is the locking via a reverse zipping terminal with a fully closed chamber system. Secured with a security seal and individually marked with sequential serial numbers on the closed chamber, it works to prevent tampering and is highly tamper-evident.

Mega Casino Box

The Mega Casino Box is designed for a wide range of applications in the gaming, financial services, retail and police sectors. With easy manual locking, high visibility of tamper attempts and the ability quickly visually inspect the seal and box contents, the security box is a strong and effective addition to any security system.

Applications include:

- Advanced security in the gaming sector
- Banking and securing currency
- Retail and goods protection
- Law enforcement

OUR GLOBAL PRESENCE

Our security seals are used every day, all over the world.
