

Plastic Security Seals

Mercor AG is distributor of plastic pull tight seals, fix length seals (lock seals) and special purpose seals for gas, water and electricity meters. There is a large selection of plastic and metal inserted seals that fulfill all requirements for this type of product – the seals are temper evident and all produces seals are recorded in company database.

Key application places of plastic security seals are airline carts, truck trailers, tank trailers, cistern tank valves, containers, box doors, hazardous material boxes, medical waste bags, gates, scales, cash bags, meters, barrels, various closures etc. We have a sealing solution for all sizes of business.

Standard **marking** of the seals is consecutive unique numbering. The seals can be further customized by individual text print, company logo, white writing pad or different types of barcode – Code 128, Interleave 2/5, Datamatrix, QR Code.

There are used different **high marking technologies** that make the printing resistant for use in various environments and prevent tampering - laser engraving, hot stamping, thermoprinting or ink jet printing.

Plastic seals PL

Indicative plastic seals with a wide range of applications are recognized for their simple closing mechanism, no tools are needed.

These seals are made of high quality material resistant to chemicals, extreme temperatures and weather conditions. Seal design eliminates every possibility of tampering.

Plastic seals are produced in two versions – PL 91 and PL 95. Unmistakable marking made by large number of technologies guarantees seal singularity and allows for each seal to be checked and registered in the most transparent way.

Pull tight seals PL 91

CAN BE USED FOR SEALING OF:

- ♦ bank and postal bags
- ♦ tanks and cabinet doors for vehicles
- ♦ containers in road and ship transport
- ♦ safety fender of stocks, platforms and windows
- ♦ restricted areas with controled entries
- ♦ closures of technical equipments
- ♦ boxes with weapons and military and police stocks

PL 10/x

PL 91/x

PL 95/x

PL 2006/12

Fix length seals PL 95

CAN BE USED FOR SEALING:

- ♦ in rail transport
- ♦ in freight transport – sealing for customs purpose
- ♦ of safety fenders of stocks, ramps and spaces with controlled entries
